

Online Grade Report – Adult Signature

Please have your parent/guardian sign below indicating that they have seen your science grades online. This is due by Wednesday, September 12th.

Dear Parent/Guardian,

Several classes this year are posting grades and/or missing homework online using the World Wide Web. For my class (science) you and your student can view their grades at <http://www.koerger.com>. This website has convenient links to other teacher websites as well. You will need a password to access your child's grades – this password is the same for all of their classes and has already been given to your child.

Some teachers update their websites daily, while some teachers do so less frequently. In any case, this is a valuable tool for your child and you to use to help them manage their work.

Please sign below indicating that your child has shown this feature to you. As always, you can call or e-mail me with any questions.

Thank you,
Alex J. Koerger
